Creating Hope

Annual Report Fiscal Year 2015-2016

A Year of Milestones

Catholic Charities has had another good year and we have a lot to celebrate. First, we finished the year with everyone safe and healthy. Second, the agency grew significantly again this year, by over 25%. That is an incredible amount and represents a lot of work by the staff and board. Most importantly, we could not have achieved this without our wonderful community support.

So, what are we doing here, our mission has never really changed. We fight poverty as our faith directs us. Our focus is using a two-generation approach to do so. Studies show the best way to help children is to provide supportive services to their parents. We have also seen that children are the best motivators for parents. When framed this way, "what would you sacrifice for your children?" the most common answer is "everything."

90% of brain development happens by age five, this time is crucial for preparing the child for the life ahead and the myriad challenges they will face. We don't know that we even want to pause and consider the problems and opportunities their generation will face. But we do know they will need a strong educational foundation to prepare for it. This is what we do at Catholic Charities.

We want to express our deep and sincere thanks for all of your support this year and pray that we can continue to earn this trust you place in us in the coming years. We couldn't provide all of this without your help.

God Bless,
Joe Mahoney
